

I am opening new accounts with you for a very important reason...

- Local banks support local businesses more. I want to help keep our local economy as strong as possible.
- Did you know in Canada, in January 2022, the government (Justin Trudeau) froze several bank accounts because he didn't like the truck convoy? For example, one lady bought a jumper supporting the convoy, and her account was frozen. I hope my money is safer with you.
- I hope you are less influenced by big corporations and government overreach.

Moving bank accounts from larger banks to smaller ones is step no.4 of the 'GLOBAL WALKOUT'...join us or find out more here...

I am closing my bank accounts with you for a reason...

- Big banks seem to be manipulated by big corporations and government overreach.
- Big banks often don't care about local business and economy.
- If the government told you to freeze my bank account because of my political views...would you do it?
